There was little discussion, Mr. Moyle alone protesting on the ground that it was unfair to the football team, which, he said, had not taken part in the street demonstration.

The board transacted some other routine business. A report from the treasurer was received showing an overdraft or \$132,495.

The board who voted against the resolution and Griffin hurried to the polling place, dashing through the streets at breakneck speed.

About the joor of the polling place, the policemen found a group of about seventy-five men and two women, all indignant absolute fidelity, their exultations rose as each message laden with the news of their triumph was displayed. Mere shouting soon ceased to satisfy them. Other means of displaying exhilaration were sought, and bonfires were lighted on many street corners.

"We were simply robbed blind in the party," said Mr. Gillespie, woth the Re publicans and the Democrats. The two 'American' judges were incompetent to the last degree, and one of them, George A. Jones had his head constantly inside the curtain and it was seen time and again that he indicated the 'American' party lever to those who did not understand the machine. Many of the voters were not familiar with the machine and Jones made it his business to see that their hand was guided to the 'American'

WIFE FILES OBJECTION.

Mrs. Berger Opposes Husband's Action for Divorce.

Rosa Bergar of 1000 Yuma street, Denver, Colo., objects strenuously to allowing her husband, John Bergar of Salt Lake to secure a divorce. Bergar came hither from Denver in January, 1905, and on Sept. 30 last filed a suit for divorce against his wife, alleging that she had deserted him on Feb. 10, 1904, and had refused to live with him.

The wife, in her answer and cross complaint filed yesterday, is brief but caustic. She says that her husband deserted her before he came to Salt Lake, and that he came to this city in order to escape an order made by the Denver court compelling him to support his family. He was placed under bond to obey this order, and the bond is still in force. She asks

for alimony in addition to a divorce. She says that Bergar earns \$35 a week.

The Bergars were married in August, 1886, at North Platte, Neb., and there are two children, both of whom are with the
